ALTHAF APRIMA KSATRIA

Business Analyst | Information Systems Management

+62 813-8247-1014 | althafaprima@gmail.com | LinkedIn | Portfolio | Jakarta, Indonesia

PROFESSIONAL PROFILE

Information Systems Management professional (Master's GPA 3.95/4.00, Summa Cum Laude) with experience in business analysis, data processing, and website development at PT Bank Syariah Indonesia Tbk. Skilled in normalizing and analyzing employee data (approximately 18,000 employees), building dashboards with Google Data Studio, and designing digital solutions with Figma and system modeling tools. Combines an understanding of business needs and information technology with strong initiative, adaptability, and communication skills.

WORK EXPERIENCE

PT BANK SYARIAH INDONESIA TBK - Jakarta, Indonesia **Jan 2023 - Jul 2023**

Business Analyst Intern | BSI Corporate University - Corporate Culture Academy

- Designed and developed the Culture Division website, featuring internal employee activity content and an attendance menu for each employee activity, then extended it with new content for all BSI employees.
- Recapped and monitored employee activity attendance across Indonesia using Google Spreadsheet and Google Data Studio, including a dashboard for the weekly TAUJIH Ber-AKHLAK sessions.
- Normalized data of approximately 18,000 BSI employees from all over Indonesia in Google Spreadsheet to keep reports consistent.
- Sorted and ranked data from all BSI branch offices (KCP and KK) from highest to lowest score to determine The Best Change Agent; prepared Change Agent recommendation letters for each Region Office.
- Built customized program monitoring spreadsheets for each head-office division and area, and analyzed employee participation to determine the best employees.
- Prepared weekly Culture Update reports in PowerPoint for the division's reporting to the director, and recorded event expense data (BSI Purnabakti 2023, BSI Excellent Award 2022) in Excel.
- Served on the BSI Employee Gathering 2023 committee (registration and catering), assisted in the training process to become a spotlight assistant, worked as operator and speaker's assistant in training sessions, and contributed to selecting winners of the nationwide BSI photo and video competitions.

Key Contribution :

- Delivered the Culture Division website, which also became the basis of my bachelor's thesis.

Project Handled :

- Culture Division Website
- Employee Activity Attendance Monitoring & Dashboard
- Best Change Agent & Best Employee Selection

SELECTED PROJECTS

Culture Division Website | BSI
Built a website with Google Sites that integrates Culture Division data so it can be distributed to all BSI employees, matching the division's needs.

Regional Data Visualization | BSI
Normalized and visualized internal employee activity data in Google Data Studio as reports for each BSI region.

Berbagi Mobile App UI Design | Figma
Designed the user interface of the Berbagi mobile application using Figma.

Personalized recommendation system research | BINUS (Master's thesis)
Studied how personalized recommendation systems can improve SVOD subscription renewal decisions among Jakarta university students.
